

COVID Vaccine guidance

At Pilgrims we continue to watch the COVID situation carefully and along with yourselves we welcome the arrival of the COVID vaccines.

Patients under our care may have questions and concerns about the vaccine.

Please do read the government guidance which says that we should all be taking up the offer of the vaccine to help protect us from COVID.

The guidance says:

“The vaccines do not contain living organisms, and so are safe for people with disorders of the immune system. These people may not respond so well to the vaccine. A very small number of people who are at risk of COVID-19 cannot have the vaccine – this includes people who have severe allergies”
