

Statement for new interview applicants

It is an exciting time to be applying to join Pilgrims Hospices. We are in the process of modernising our hospice site in Canterbury and we wanted to share with you, at the earliest opportunity, our plans for the future modernisation of our Canterbury site.

We envisage significant changes to the current buildings and the existing in-patient unit will be demolished and replaced. As you could well imagine this will hugely benefit our patients, their families, staff and the wider community in the long term.

However, the modernisation project will inevitably cause short term disruption. Whilst operationally nothing is going to change quickly at Canterbury, we estimate that construction is likely to start on site during 2027. Once we have a commencement date for construction we will be able to better understand in more detail if, and how, this will have an impact on specific roles.

We will work with you and support you through this transitional time. We do very much hope that you still want to attend your interview at Pilgrims Hospices at such an important time in our history. This vital modernisation project will safeguard Pilgrims Hospices' long-term presence in the heart of Canterbury and continue to provide quality end of life care.

We are happy to discuss this further, so should you require further information, please feel free to contact us.

Yours sincerely,

HR Department
