What you'll be a part of:

At Pilgrims, we believe in creating a space of hope, dignity, and support, not only for people with life-limiting illnesses but for their families as well. Our locations in Canterbury, Ashford, and Thanet provide a wide range of services, from inpatient care to hospice at home and community programs—all focused on helping patients live well, no matter their diagnosis.

"I've never worked somewhere that is quite so lovely"

Far from being places of sadness, our hospices are places of life—where people can find joy in moments, no matter how small, surrounded by family, friends, and compassionate care teams. We don't just treat symptoms; we offer emotional, spiritual, and social support to ensure both patients and their families are uplifted. Whether it's through sharing laughter, enjoying a favourite activity, or simply making cherished memories, we aim to bring happiness to every day.

Being part of the Pilgrims team means that your role contributes to something much greater - helping create an environment where families find strength, comfort, and even happiness during difficult times. Whether you're working behind the scenes or on the front lines, every contribution plays a crucial part in enabling us to provide free, compassionate care to over 2,500 people each year.

You can read more about working at Pilgrims on our website and our social media. If you are reading this digitally, you can click the links below.

The Role in One Paragraph

This is a unique opportunity for an experienced clinician to lead how volunteers are integrated into patient and family care at Pilgrims Hospices. Working across inpatient, therapy, psychosocial and community services, you will shape and support a diverse range of volunteer roles, from ward-based support to bereavement groups and wellbeing activities. You will act as the central point of contact for clinical teams, providing guidance, addressing day-to-day challenges and ensuring volunteers are safe, supported and able to make a meaningful contribution. This role combines strategic thinking with operational involvement and would suit someone who enjoys working across teams, building relationships and bringing out the best in others.

Due to the nature of our services and volunteer activity, the role requires a flexible approach to working hours. This may include some evenings and weekends, planned in advance where possible, to support groups and community programmes.

We're committed to your professional development, offering continuous training and growth opportunities to ensure you're always expanding your skills. Every day in this role is unique, but what remains constant is the positive impact you'll make in a supportive, happy environment.

The Organisation

Pilgrims Hospices provide care and support for patients with life-limiting illness and their families.

As well as caring for their clinical needs, we support our patients to feel comfortable and happy, whether by spending time in our beautiful gardens, having pamper days, playing a board game with their loved ones, eating their favourite meal or whatever is special to them.

To find out more about the other teams and get an idea about the size of the organisation and exactly where this role sits, please see the Organisational Chart included at the end of this job pack. You can find out about volunteering at Pilgrims Hospices on our website: <https://www.pilgrimshospices.org/get-involved/volunteer/>

'At the hospice, there is a clear philosophy that when you've finished work, you've finished work- you're not expected to take work home with you. I'm so much happier'

Our Vision

“Of a community where people with a terminal illness and their family and friends are supported and empowered to live well in mind and body until the very last moment of their life”.

We recognise that our workforce is integral to the delivery of [our Vision](#) and our charitable aims. Pilgrims Hospices continues to create a highly skilled, motivated, engaged and healthy workforce by providing an environment where staff and volunteers feel highly motivated to perform their roles to a consistently high standard, and actively role model our charitable behaviours and values.

To achieve [our Vision](#), we have a shared set of values and behaviours that enable us to be the people and the charity that patients and their loved ones need us to be. They form [our CODE](#), which guides us in our daily working and decision making:

Compassionate We treat everyone with compassion and care

Open We communicate openly, honestly and effectively

Dynamic We are dynamic, improving and developing our service

Empowered We empower people to achieve their outcomes

‘I’ve met some wonderful and kind people here; it is a lovely place to work and I have witnessed how much thought and respect is given to staff and volunteers alike with the ‘Thank You’ events and the ‘Personal Best’ programme to name a few’
